Kvevrid on Gruusia ovaalse kujuga savianumad veini valmistamiseks, laagerdumiseks ja säilitamiseks. Kvevri veinide valmistamise traditsioon on 8000 aastat vana ja annab veinile omapärase, taniinse maitse.

Qvevri are Georgian egg-shaped clay vessels used for making, ageing and storing the wine. Qvevri wine making tradition is 8000 years old and gives wine a rich, tannic taste.
